OFFICE MEMORANDUM

To: Captain J.W. Frits

Subject: Jack Leon Rubenstein & Ruby WM

Sir:

At approximately 11:00 AM I was assigned to the hall just outside of the jail office. Our instructions were to keep the passage-way clear when we observed Oswald being brought out.

The News people were all asked to stay out in the drive and to keep the passage-way clear. They were also asked not to ask Oswald any questions. As Oswald was being brought out.

As Oswald was brought out, the passage-way was starting to fill up. I stepped a little behind and to Oswald's right to try and prevent anyone getting to him from this side.

I heard a shot and then turned to see several Detectives take subject into custody. As he was restrained I observed, what appeared to be a .38 caliber snub nose revolver being taken from his right hand.
